

* Starting the SLO Process *

Step 1 Review Standards and Content

Understand concepts & skills to teach

Map concepts & skills to standards

Keep in Mind

SHOULD BE:
long term,
measurable,
multiple standards

Step 2 Gather & Analyze Student Data

Pretests

Review Data

Look for trends over time

Keep in Mind

Trends can define expected growth

SLOs are data driven
Use the data

Step 3 Identify Students & Interval

Know trends

Check for consistency of trends over all

Define time frame

Keep in Mind

Largest possible group of students

Have a valid reason to exclude ANY student

Goal matches instruction interval

Step 4 Assessments

Align assessments to content

Define Assessments:
Summative Assessments

Performance-based Assessments

Authentic Assessments

Student Portfolios

Create Rubrics

Step 5 Set Growth Goals

Define growth indicators

Show how you were:
Informed by current data

Informed by student data trends

Keep in Mind

Must be rigorous yet attainable

Be able to articulate
* WHY *
the targets are appropriate
