

OnHand Schools Benchmark Assessments

OnHand Schools Benchmark Assessments are modeled after Common Core, state core and end-of-course assessments. Equipped with item analysis reports, teachers can track performance on Core Standards and will be better informed on areas of strength and concern for their students. As always, student results are linked back to their EdInsight student profile for easy access and individual student analysis.

3 Tests for each of the following subjects/grades:

Reading: Grades 3-8

Math: Grades 1-8

Algebra 1, Literature and Biology

Take assessment:

✓ Online

✓ Paper & Pencil

Benchmarks feature the following question types:
