

YOUR CURRICULUM BECOMES

A STANDARDIZED, ELECTRONIC, SEARCHABLE RECORD

- The curriculum entered is in a standardized electronic format that is easy and flexible to maintain or export into other formats;
- EdInsight uses a standard template of the desired information created specifically by your district. Therefore; everyone within your district captures similar data;
- Enables you to easily and flexibly search your entire curriculum;
- All of your data is in one place (centralized data store) , and can be easily accessed or backed up at any time;
- EdInsight contains a rich and powerful set of tools for reporting on your curriculum.

MAIN FEATURES

OF THE EDINSIGHT CURRICULUM MANAGEMENT SYSTEM

Standards-Based Curriculum Alignment

- Easily find gaps in standards for specific courses, or the overall curriculum;
- Identify the frequency, minutes covered, and scope and sequence of the standards used in the curriculum;
- Create integrated curriculum through the alignment of your curriculum to state standards;
- Compare and analyze standards-based assessments. EdInsight supports direct comparison with student performance on the PSSA, 4-Sight and other assessments;
- Monitor standards usage, and analyze where specific standards are used within your mapped curriculum or lesson plans.

Promotes Use of Best Practices

- View curriculum as a 'living document;'
- Essential Questions and Enduring Understandings;
- UbD Methodology (Understanding by Design-- Wiggins and McTighe);
- Edinsight CMS becomes a centralized place to create and share rubrics;
- Sharing of instructional resources at a larger scale (district and global user sharing);
- Share curriculum maps between school districts;
- Essential vocabulary;
- Tapping into prior knowledge;
- Encourages higher-level thinking strategies.

CAPTURING

INTELLECTUAL CAPITAL

A district that is focused on improving will value their greatest asset- their people. Each person contributes to the intellectual value and assets of the overall district. Having an electronic curriculum provides a way to quickly and easily capture the expertise of highly experienced teachers to make that knowledge available to all.

“The people are the greatest asset of a district that is focused on improving student achievement.”
